September 2021 Financial Report

City of San Antonio

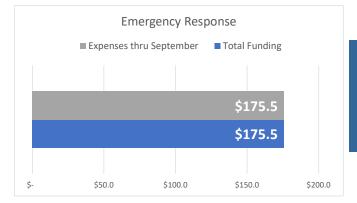

Variance Explanations

- The variance in the spending of General Fund resources is the result of the savings in the Health Implementation Plan as described in note 4 and spending under Digitial Inclusion.
- The variance in the spending of FEMA resources is due to \$2.3M in Non-Congregate Sheltering expenses over the original approved budget of \$1.2M as described in note 7.
- The variance in the spending of Other Federal Grant resources is due to reduced spending in the Health Implementation Plan, as described in notes 4 and 5, a shift in Public Safety grant spending under Other CARES/CRRSA grants as described in note 8.
- The favorable variance is due to the State's previous funding for testing and fewer tests conducted since March. The State ceased and transferred operations to Curative and Davaco to process and bill through insurance or their own grant programs. The City anticipated that over 500K tests would be completed by the end of the fiscal year, however less than 100K tests were completed due to the State's Assistance and needs of the community.
- The favorable variance is due the State's previous support for staffing at the Alamodome for Mass Vaccinations. Note that Covid-19 vaccination CDC grants are funded thru June 2024.
- The unfavorable variance is due to a continued need of Housing Assistance for both San Antonio and Bexar County residences above monthly plan projections. Assistance to households increased month over month by 200 households with an average increase per household of \$300. Bexar County has arranged for the City to receive an additional \$4.4M in federal funds to assist eligible residents. This amendment went to City Council on November 18th amd will be reflected in next month's report.
- The unfavorable variance is due to a continued need of Non-Congregate Sheltering and its associated expenses being charged against FEMA in excess of Council's original appropriated budget of \$1.2M. DHS will submit an amendment to City Council to increase the FEMA award request. There is sufficient Other Federal funding available to cover expenses incurred to date if the additional FEMA funds are not approved.
- The favorable variance is due to Police utilizing Coronavirus Relief allocated funds first given its expedited timeline for purchases. Originally Police
 anticipated to fund through the Byrne JAG grant. The department is currently requesting an extension and reprogramming of funds from the grantor to spend. Police anticipates a response by the grantor by the end of December.

Spending Plan by Program

City of San Antonio

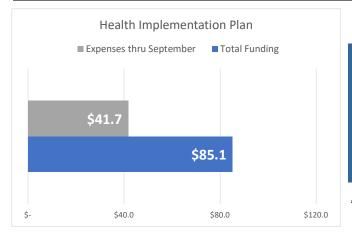

Emergency Response

Months Remaining to Spend \$0 Million

O Months

Health Implementation Plan

Months Remaining to Spend \$43.4 Million

33* Months

*Vaccine Grant thru June 2024
