November 2022 Financial Report

City of San Antonio

Variance Explanations

\$730K of the Coronavirus Relief Fund program income was applied towards Personal Protective Equipment (Emergency Response) in January 2021. \$839K in additional program income is a result of interest earned from available cash balance.

The FEMA revenue variance is due to projections for the COVID-19 Testing and Treatment Center program running through December but ending in August to align with the lease for the space utilized. Additionally, the Metro Health Department received additional funding from the Centers for Disease Control for COVID-19 Vaccinations resulting in the closing of the FEMA portion of the Mass Vaccinations program. The COVID-19 Vaccinations Plan has administered 275,940 vaccinations, and hosted 1,367 Pop-up Clinic events.

The Bexar County Agreement revenue variance is due to revenues being received after this report. The City has an interlocal agreement with Bexar County for the Benergency Housing Assistance Program (EHAP) which provides relief to renters and homeowners experiencing emergency financial situations who are unable to pay their rent, mortgage, or utility bills due to the COVID-19 pandemic.

Favorable variance is due to savings related to the COVID-19 COVID Case Investigation Team, the COVID-19 Testing Task Force, COVID-19 Media Relations & Communication and the COVID-19 Mass Vaccination Clinic program. To date, these programs have administered 417,765 COVID-19 tests at the Freeman Coliseum

- 4 and walk-up testing sites, as well as 737,842 tests through the Curative Kiosk, Community Lab sites, and mobile vans. Community education on COVID-19 prevention has been provided in person to 115,210 residents and with 443,019 door hangers that have been delivered to residents in marginalized neighborhoods. Additionally, 105,965,840 media impressions have been made through the media campaign.
- Favorable variance is due to Workforce Development programs having fewer participants than projected. A total of 2,302 participants have completed the program and received a job, 5,488 have enrolled, and 101 participants received child care subsidies.
- Favorable variance is due to savings related to Housing Security Domestic Violence Program. The program provided emergency assistance to 1,545 victims of domestic violence. Of this, 302 participants received emergency housing and 1,365 received H-E-B gift cards for necessities.
- 7 Favorable variance is due to savings related to Small Biz Job Training and Small Biz Hospitality Grants. The Small Biz Job Training program provided on-the-job training opportunities to 69 participants, and Hospitality Grants provided \$13 million in grants to 465 small businesses.
- Favorable variance due to a reduced scope of work in the Student Home Connection Program. The program provided 1,662 wireless hotspots for immediate support to students adapting to remote learning as a result of the COVID-19 pandemic.
- Pavorable variance due to ongoing contract negotiations for the Community Health Workers Hub Program. The program will train and deploy community health workers to build and strengthen community resilience by addressing health disparities.
